

Additional Information

V001

Part 1 - Summary of the dossier

V002

1 - Table of Contents

T004

1a Administrative Information

T005

1a1 Additional Information

T006

1a2 Cover letter

T007

1a3 Decision of Foreign Authorities

T008

1a4 Documentation on product quality

T009

1a5 Forms

T010

Other Forms

C027

1a6 Manufacturing

T028

1b Summary of Product Characteristics, Label and Package Insert

T029

1c Detailed and Critical Summaries (DACs)

V005

1c1 DACS on the quality documentation

V006

1c2 DACS on the safety documentation

T093

1c2 DACS on the safety and residues documentation

V007

1c3 DACS on the efficacy documentation

V008

Responses to Swissmedic LoQ

V009

Part 2 - quality documentation

V010

2 - Table of Contents

T035

2a Qualitative and quantitative particulars of the constituents

V011

2b Description of the manufacturing method

V012

2c Control of starting material

V013

2c1 Active substance(s)

V014

2c2 Excipient(s)

V015

2c3 Container closure system

V016

2c4 Substances of biological origin

V017

2c Production and control of starting materials

T094

2c1 Starting materials listed in pharmacopoeias

T095

2c2 Starting materials not listed in a pharmacopoeia

T096

2d Control tests carried out at intermediate stages of the production process

V018

2d Control tests during the manufacturing process

T097

2e Control tests on the finished products

V019

2f Batch-to-batch consistency

T098

2f Stability tests

V020

2f1 Stability tests on active substances

V021

2f2 Stability tests on the finished products

V022

2g Other information

V023

2g Stability test

T099

2h Other information

T100

Part 3 – Safety and residues

V024

3 - Table of Contents

T079

3a General requirements

T101

3a Safety

V025

3a1 Precise identification of the product and of its active substance(s)

V026

3a2 Pharmacological studies

V027

3a3 Toxicological studies

V028

3a4 Other requirements

V029

3a5 User safety

V030

3a6 Environmental risk assessment

V031

3b Laboratory tests

T102

3b Residues

V032

3b1 Precise identification of the product concerned by the application

V033

3b2 Metabolism and residue kinetics

V034

3b3 Residue analytical method

V035

3c Field studies

T103

3d Environmental risk assessment)

T104

3e Assessment required for VMPs containing or consisting of GMOs

T105

3e Annexes

T106

Part 4 – Pre-clinical and clinical trials

V036

4 - Table of Contents

T092

4a General requirements

T107

4a Pre-clinical trials

V037

4a1 Pharmacology

V038

4a2 Development of resistance

V039

4a3 Tolerance in the target animal species

V040

4b Clinical trials

V041

4b Laboratory trials

T108

4c Field trials

T109
